🚨 TOUCH RESPONSE IMPROVE GUIDE -

Step By Step ⤵️

1️⃣ Game Mode / Performance Mode ON (if available)
Settings → Game Space / Game Turbo / Game Mode
What to do:
• Game Mode ON
• Monster Mode On
• Background apps auto-restrict allow karo
Why:
Game ko system priority milti hai, touch input fast register hota hai.
Agr game mode mai Options nahi hai yeh wala So koi baat nahi !

2️⃣ Pointer Speed (Very Important – Don't Skip)
Settings → Additional Settings → Accessibility → Pointer Speed
What to do:
• Pointer Speed 60% – 75% ke beech rakho
• 100% mat rakho (aim unstable ho jata hai)

Why:
Finger movement aur in-game aim ka perfect sync banta hai.

3️⃣ Touch Sensitivity / Touch Optimization

Settings → Display / Additional Settings
What to do:
• Touch Sensitivity ON
• Refresh Rate (Max)
• Touch Optimization High
Why:
Light touch bhi accurately detect hota hai (especially close fights).

4️⃣ Disable Navigation Gestures (Latency Cut)
Settings → System Navigation
What to do:
• Buttons use karo
• Gestures OFF
• 3 Finger Screen shot (off)
• Accidental Touch off
Why:
Gestures touch ke beech micro delay add karte hain.

⚙️ Developer Options (Safe Settings Only) -

5️⃣ Disable HW Overlays
Settings → Developer Options
What to do:
• Disable HW overlays → ON
Why:
GPU directly screen handle karta hai → faster touch response.

6️⃣ Background Process Limit
Developer Options → Background process limit
What to do:
• Select At most 2 processes
Why:
RAM free rehti hai → touch + FPS stable.

7️⃣ Animation Scales (Optional but Recommended)
Path:
Developer Options
Set these:
• Window animation scale → 1x
• Transition animation scale → 0.5x
• Animator duration scale → 0.5x
Why:

UI fast feel hota hai, touch delay kam lagta hai.

🚫 Avoid These Mistakes
❌ Pointer speed 100%
❌ Force GPU rendering
❌ Third-party touch booster apps

🧠 Pro Tips -
Match se pehle:
• Phone heat kam rakho
• Background apps clear
• Charging ke saath mat khelo.
• Game Settings se clear cache.
• SENSI ko Regularly Change Mat Karo.
• Use finger sleeves For better and smooth touch
• In Game FPS High.
